*CET is a trademark of CET Fire Pumps Mfg, Ltd.*
CET Fire Pumps MFG has been involved in the manufacture of firefighting equipment for more than 100 years. Our experience, combined with the expertise of our entire staff, allow us to offer you the simplest, highest performing, most reliable skid units in the industry. Completely engineered and tested. CET skid units perform in all the environments you expect them to.

We are proud to offer you the most functional skid units available. Because we know how important ease of operation is to you. Each detail of your skid unit is engineered and manufactured to help you react quickly. Features such as, control panels, start/stop locations, manifold construction and water/foam options are designed to operate with a minimum of effort...day or night!

Our skid units are ready to use when you need them, and it’s as simple as 1, 2, 3!
PUSHING THE LIMITS OF HIGH PERFORMANCE: THAT'S OUR CHALLENGE!

At CET Fire Pumps MFG, our goal is to impress you. Three “D” dynamic image engineering systems, complete manufacturing control, in house major component manufacturing, all to give you, one source design history and one stop service response. If we get it wrong...we will make it right!

Our skid units are ready to react with you, because our standards are high enough to meet yours... and even higher!

NOTHING LESS THAN THE HIGHEST QUALITY COMPONENTS GO INTO MAKING A CET SKID UNIT.

We make no compromise on the parts we use to manufacture your firefighting skid unit. Additionally, each skid unit is carefully inspected and tested before it is delivered to you. For our standards to be the best, we must work every day, to meet yours.

The reliability of our equipment is not just a standard, it’s our commitment!

BECAUSE IT IS WORTH IT!
MOST COMMON FEATURES
ON OUR SKID UNITS

- Fill-in connection with flexible hose
- 3 gallon gas tank with aluminum holder and quick connector
- High quality welds and exceeds international standards
- Foam tank
- Water tank
- 2 1/2" tank suction ball valve
- High density steel suction piping
- Suction cap with chain
- Polypropylene water tanks
- Scotty foam system
- Water sight gauge
- Hose reel
Shipping always included in the final price

All our Skid Units are shipped in wooden boxes to prevent damage during handling.

Plug for water tank drain

3” overflow (at the back)

12 volt quick connector

Control panel with master switch, light and pressure gauge

Main manifold made from high density tubing

Quick Delivery Skid Units Models

**Econo Pac**
- Low mount configuration
- PFP-6hpHND-M-Twin fire pump
- Pump capacity 20 gpm at 125 psi
- Self priming fire pump
- Pump control panel
- 60 gallon water tank
- Manual rewind hose reel
- 100’ x 5/8” booster hose
- Forestry nozzle
- 1” inlet with cap and chain
- 1” outlet with cap and chain
- 1” valve for hose reel
- 1” valve for tank fill / recirculating
- 3/4” polypropylene platform with under lifting area

**Specifications:**
- 1” valve for tank fill / recirculating
- 1.5” inlet with cap and chain
- Pump control panel
- PFP-6hpHND-M-Twin fire pump
- 6.5hp twin impeller fire pump
- 60gpm at 10psi, 40gpm at 100psi and 20gpm at 125psi
- 1.5 gallons integrated fuel tank
- Lighted control panel
- Low profile electric rewind hose reel
- 1 inch x 100 foot booster hose
- 2.5 inch tank to pump 1/4 turn ball valve
- Multiple outlets manifold
- 1.5 inch service line with cap and chain
- Options available

**Forest Pac**
- 200 fully baffled propylene water tank
- 6.5hp twin impeller fire pump
- 60gpm at 10psi, 40gpm at 100psi and 20gpm at 125psi
- 1.5 gallons integrated fuel tank
- Lighted control panel
- Low profile electric rewind hose reel
- 1 inch x 100 foot booster hose
- 2.5 inch tank to pump 1/4 turn ball valve
- Multiple outlets manifold
- 1.5 inch service line with cap and chain
- Options available

**Attack Pac**
- 200 fully baffled propylene water tank
- 20hp mid range fire pump
- 265gpm at 50psi, 190gpm at 100psi, 115gpm at 150psi and 45gpm at 200psi
- 3 gallon fuel tank
- Lighted control panel
- Low profile electric rewind hose reel
- 1 inch x 100 foot booster hose
- 2.5 inch tank to pump 1/4 turn ball valve
- Steel manifold with multiple outlets
- 1.5 inch service line with cap and chain
- 3/4 inch pressurized garden hose connection
- Options available

**Ready Pac**
- 200 fully baffled propylene water tank
- 6.5hp twin impeller fire pump
- 60gpm at 10psi, 40gpm at 100psi and 20gpm at 125psi
- 1.5 gallons integrated fuel tank
- Lighted control panel
- Pre-connect hose tray with connection
- 2.5 inch tank to pump 1/4 turn ball valve
- Multiple outlets manifold
- 1.5 inch service line with cap and chain
- Options available

**Skeeter Space Pac**
- 75 fully baffled propylene water tank
- 6.5hp twin impeller fire pump
- 60gpm at 10psi, 40gpm at 100psi and 20gpm at 125psi
- 1.5 gallons integrated fuel tank
- Lighted control panel
- 1.5 inch tank to pump 1/4 turn ball valve
- Multiple outlets manifold
- 1.5 inch and 1 inch service lines with cap and chain
- Stok(e) basket area
- Open storage compartment
- Enclosed storage compartment
- Options available

**Ultra Power Pac**
- Modular configuration
- CET Piston Type High Pressure Pump
- 11 GPM
- 1450 P.S.I.
- 16hp Briggs and Stratton Engine with integrated Gas Tank
- Self-Priming
- 1.5 Gallon Fuel Tank
- Triple Use Discharge Gun. Fog, Jet, Atomized
- Manual Hose reel with 150’ High Pressure Hose
- 1” Inlet
- Custom Pump Panel
- High Strength Epoxy treated frame
- Automatic acceleration motor pump system
- Auxiliary outlet in the control panel to connect a second line
- Options available
SATISFIED CUSTOMERS AROUND THE WORLD

C.E.T. products are shipped every day to all parts of America as well as overseas. Here are some of the towns where you can find a customer who is satisfied with his C.E.T. products.

BARTLETT, KS - SINGAPORE, JAPAN - NY - HAILE, ME - OCEANACRE, CA - CHANNAHON, IL - AUBURN, ME - MONTMARTHE, LA - LINDEN, AL - NICKABACK, AL - CLEVELAND, OH - TOLEDO, OH - CHICAGO, IL - ABERDEEN, MD - DURHAM, NC - LYNCHBURG, VA - DALLAS, TX - FT. WORTH, TX

NASCAR, CAP Canaveral, FL

"I’ve had a C.E.T. Skid Unit for a few years. When the time came to buy another one, I went back to C.E.T. dealer without hesitation. Their Skid Units don’t only deliver great performance, they’re also real easy to use. I’m sure they paid special attention to that when they designed them. They thought about every detail to make things easier for us!"

Robert Pray, Fire Chief, Rehoboth FD, MA

"I have a Skid Unit from C.E.T. and I use it a lot. It’s never let me down. That’s what I call reliable!"

Bob Shepanski, Fire Chief, Cap May Point FD, NJ

"What I like the most about my Skid Unit is the great performance. When I bought it, the experts at C.E.T. advised me so I’d get maximum power. And now I’ve got all the power I need! I recommend the C.E.T. team and their drop-in units to all firefighters."

John Paquin, Fire Chief, Eastford FD, CT

and there are many others.

Thank you for your confidence.
SKID UNITS DESIGNED FOR A MINIMUM OF MAINTENANCE
COMBINED WITH RELIABLE, COST EFFECTIVE, PERFORMANCE

Low operating costs and minimal down time combined with reduced manpower requirements make CET skid units the best friend of todays’ department budget. Replacement parts and service are available on the internet and parts will ship in 48 hours, for most needs.

SOLID GUARANTEES

Complete Unit:
C.E.T. Fire Pumps MFG warrants that its products are free from defects in material and workmanship for a period of two years from date of purchase.

Pump Assembly:
CET will repair or replace all main fire pump components unconditionally for up to two years.

Water tank:
Limited lifetime warranty.
